Frenchtown Housing Rehab Program, Round II

Overview

Background

According to longtime Frenchtown residents, the quality of the neighborhood's housing stock has declined as structures aged. As of 2018, approximately 71% of the structures in the neighborhood were built before 2000. As a community's housing stock ages, the need for maintenance, repairs and upkeep of its housing becomes a critical issue. Some Frenchtown residents have limited resources to repair and maintain their homes and community resources that may be available to help residents make the needed repairs are also very limited. With the neighborhood's median income at just over \$24,000 annually, some residents are not in a financial position to prioritize home repairs or improvements. As of March 2020, there were 36 active code enforcement cases in the Frenchtown neighborhood, including 19 citations for substandard buildings and six for dangerous buildings. Frenchtown residents have stated that unkept vacant lots, dilapidated homes and abandoned homes detract from the vibrancy of the neighborhood and contribute to negative perceptions.

The Frenchtown neighborhood, working through the City of Tallahassee's Neighborhood First planning process, has developed a strategic neighborhood plan that outlines goals, strategies and action items to address rehabilitation of the community's housing stock, among top neighborhood priority issues.

Frenchtown Neighborhood First Plan

The Frenchtown Neighborhood First Plan seeks to find ways to mobilize both financial and human resources to help all residents to live in safe and affordable homes. The plan includes strategies and action items which call for the establishment of housing rehabilitation programs for the Frenchtown neighborhood. The plan states;

Strategy H 1.1: Promote the repair and reuse of existing structures.

Action H 1.1.2: Develop and implement a comprehensive housing rehabilitation program that provides grants and loans for interior and exterior home repairs/improvements. Funding for interior repairs should be limited to owner-occupied homes. Consider including incentives/protections for tenants as a criterion for landlords to receive funding from this program.

"D" Streets Block by Block Affordable Housing Demonstration Project Guidance: One approach the neighborhood would like to pursue is to focus housing initiatives/programs (new construction, rehabilitation, repairs, and landscaping) first in one section of the neighborhood. The "D Streets" of Dent, Dewey, Dover, Dunn, Dean, Dade and Delaware would be targeted first in order to concentrate as much impact as possible in a defined area.

Funding: On October 12, 2023, the CRA Board approved \$1,200,000 in funding for the continued implementation of the Housing Rehab Program (Round II) for Frenchtown community. This second round of the program will fund the rehab of approximately 40 homes. Round II of the program includes revisions based off of community feedback and guidance from Frenchtown Neighborhood First Plan.

The Frenchtown Housing Rehab Program, Round II

What is the Frenchtown Housing Rehab Program, Round II?

The Frenchtown Housing Rehab Program, Round II provides a 5-year forgivable loan to eligible Frenchtown homeowners and landlords to make repairs to homes located within the Frenchtown neighborhood of Tallahassee. The maximum funding provided by the program is up to for \$25,000 owner-occupied units and up to \$17,500 for renter-occupied units. It is funded by the Community Redevelopment Agency (CRA).

What is a Five-year forgivable loan?

Individuals awarded a Frenchtown Housing Rehab grant will receive their award in the form of a loan that is taken at 0% interest, with payments deferred, and forgivable monthly over a five-year lien period. In accepting the grant award, the homeowner agrees to repay the outstanding balance of the loan upon the occurrence of any instance of default (for example, if the owner sells the home before the end of the five (5) years, the homeowner would be responsible to repay the portion of the loan that has not yet been forgiven). Please note that no funds will be given directly to the homeowner. The funds awarded to a homeowner will be administered by a program contractor who will work with the homeowner to complete the repairs on his or her home.

What does the Frenchtown Housing Rehab Program, Round II seek to achieve for the Frenchtown neighborhood?

The Frenchtown Housing Rehab Program, based on strategies, action items and guidance provided by the Frenchtown Neighborhood First Plan, seeks to:

- 1) Preserve and strengthen Frenchtown's existing housing stock;

- 3) Provide financial incentives to income eligible homeowners to make repairs to their homes

- 4) Provide financial incentives to landlords whose rental properties are occupied by income eligible tenants to make repairs to their properties; and
- 5) Prioritize improvement to designated historic homes (local, state, or national registry) and homes over 50 years old.

This process is not expedited, and awardees should expect several months before physical work will be conducted on their property.

How will funds be disbursed?

Funds will be distributed to the contracted administrator for the program, who will in turn pay all hired contractors directly from the City for the work completed. No funds will be distributed directly to the homeowner.

How and who decides what repairs will be completed?

A home inspection will be conducted by the contractor along with the homeowner to determine what repairs are eligible and most needed on the home. Code repairs addressing

health and safety issues are the highest prioritization for repairs to be funded, followed by energy efficiency and environmental health concerns. What are my responsibilities as a landlord/owner of a renter-occupied unit that receives assistance through this program?

Owners will be responsible for agreeing to the work conducted by the assigned contractor, prioritizing code and safety first. For renter occupied units, the landlord is responsible for notifying current tenants of the prospective work to be completed in the unit, potentially causing a temporary disturbance.
